## Updates on T-GAMES achievements

The third intellectual output of T-GAMES is moving forwards!

**WE ARE ALMOST READY TO FINALIZE OUR PROJECT!**

T-GAMES is progressing smoothly!

The T-GAMES project partners have been working intensively on finalising the final steps towards the Intellectual Output 3.

This intellectual output is a database of games, activities and resources on bullying facilitation, impact mitigation and escalation and bullying prevention. This deliverable an innovative repository of games suitable for kindergarten and primary school children applicable in formal, non-formal and informal learning. The games are dedicated for three age groups – 4-5 years old, 6-7 years old and 8-10 years old. The database consists of two types of games:

- games that already exist and are used somewhere
- games that participating teachers from each partner country created themselves after the Learning, Teaching, Training Activity entitled „Game Methodology Training“ which took place from 5-9 July 2021.

## WE ARE ALMOST READY TO FINALIZE OUR PROJECT!

Each school/kindergarten partner from each country selected 9 games and developed 5 own games for the database. Moreover, they collected and developed games for the age group of children they work with.

The most important goal of the Database is saving time and efforts of teachers in the contemporary world when time constraint is one of the most sensitive characteristics. Right now it is extremely time consuming for the teachers to find what they need in terms of games, there are publications, there some databases that are pretty good but huge, this way it will be targeted on specific needs of theirs.

THIS LAST RESULT IS AVAILABLE FOR FREE! DON'T MISS OUT ON THIS INVITATION FOR YOU TO CHECK IT OUT AND LET US KNOW WHAT YOU THINK!
