

*We 've Reached the End of our Project!*

## OUR PROJECT HAS NOW BEEN FINALIZED!

ARE YOU READY TO SEE WHAT WE HAVE ACHIEVED?

Our T-GAMES project has now come to its end, but the achievements and material we've developed within it will remain available!

The T-GAMES partnership hopes our project can help bridging what you want to do, and the skills and knowledge that you might need to get there. For this reason, gathering partners (Non-school partners but also Institutions dealing with pre or primary school education) from Bulgaria, Greece, Poland, Czech Republic and Romania, the T-GAMES project has brought to everyone:

Metodology for elaboration  
of educational games

Guide and testing scenarios on  
game metodology for educators

Database of games, activities and resources  
for bullying prevention and facilitation

Overall, the materials were very positively received by direct participants in our activities, which supports that T-GAMES will have an effect way beyond its 2 years of implementation.

**ALL OF IT IS AVAILABLE FOR FREE ON EACH PARTNER'S WEBSITE!**

**WE WARMLY INVITE ALL OF YOU TO CHECK THEM OUT!**

**WE WOULD LOVE TO HEAR WHAT YOU THINK ABOUT THEM!**

# WHAT NOW?

We believe that the school safety is a fundamental right of all students and bullying prevention needs involvement from all stakeholders. It is now time to reflect on our systems and think about how we can keep resources in the loop by implementing educational and innovative methodologies, tools and techniques to create a safe and inclusive environment.

Indeed, those who have participated in our activities have asked us for more similar events and content, showing that more of us also believe in developing high quality early childhood education and care systems.

We from the T-GAMES consortium see these developments and are brainstorming ways to keep on bringing new material and information to all of you through other projects! So keep following us to receive updates!
